

### **REMARKS/ARGUMENTS**

In the specification as filed, the Brief Description of the Drawings included erroneous information. The specification has therefore been amended to delete the erroneous information. We submit that no new figures or new material is added to the specification. The amendments are introduced in order to correct typographical errors. Furthermore, in relation to the figures we submit that none of the figures were omitted at the time of filing the specification, rather the Brief Description of Drawings included typographical errors when describing the figures.

We respectfully submit that Fig. 17 C was erroneously referred to in the Brief Description of the Drawings. Consequently we have now amended the specification in a manner such that Fig. 17C is no longer referred to in the Brief Description of Drawings on page 4 of the specification.

We respectfully submit that this amendment does not introduce new matter into the specification.

We respectfully submit that this amendment does not introduce new matter into the specification.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Very respectfully,

Applicant:
